EIS Facilitating Digitalisation to Transform New Age

Dear Academician,

The increasing convergence of the physical and virtual worlds offers unlimited opportunities in almost all areas of society. Digitalisation, as sound it nowadays, is all-encompassing crossways every aspect of our day-to-day lives in all thinkable ways. The influence of digital technologies is predominant in each range of our lives and subsequently the current epoch is also labelled as the “digital age”. The procedure of digitalisation started some five decades back with the arrival of computing technologies and digital electronics. Currently digitalisation can be perceived as an instrument of transformation which extends afar our lifestyle to the method we implement, interrelate and demeanour business. Corporate world is using Digitalisation academia in a big way like the teacher decided to use digitalization for all homework assignments during this semester to teach her elementary school students about new technology that has been introduced in the school.

It is expected that by 2020, numerous people will be self-governing workers, freelancers, contractors and provisional employees as these positions are being held by the finest and the happiest. Harvard Business Review called this phenomenon “the Rise of the Supertemp”. The future employee must learn intrinsic enthusiasm and develop a growth mind set and predisposition to be successful.

The Event on “Digital Outreach and Convergence Summit” DOCS’16 would really be a great initiative in this direction who are going to meet at IIT Delhi on 28th May, 2016, along with FITT, KRDWG, GJEIS, PHDCCI, TIFAC as a collaborative partner. We have fabricated a comprehensive band to make GJEIS authenticity along with KARAM society and Informatics Publishing Limited whose role is in reality remarkable. I would like to exhibit gratitude to all that has helped us with this journal. Please don’t be shy to toss a knock-back to me, as your proposal and sustenance are vital to each one of us.

Dr. Subodh Kesharwani,

Founder, Editor-in-Chief, GJEIS
